FIBERGLASS CURB ANGLE

FOR USE WITH DURADEK®, DURAGRATE® AND DURAGRID® GRATING, CUSTOM DECKING AND COVER PROFILES

- Corrosion Resistant
- Low Conductivity
- High Strength
- Fire Retardant
- Easy to Install

Strongwell’s curb angle has a built-in, continuous angle that locks into concrete, eliminating the need for individual anchors.

Fiberglass curb angle is engineered using a surfacing veil and fire retardant gray vinyl ester, except for the 4”, which is a fire retardant slate gray vinyl ester. This unique combination produces the superior strength, stiffness, wear protection and long-term corrosion resistance. Curb angle is available in 20’ length.
Availability

Fiberglass curb angle is available in four sizes. Other sizes can be custom manufactured. Contact Strongwell or ask your local distributor about availability.

1" Curb Angle

Area: 1.06 sq. in.
