*Fastener recommendation dependant on plate thickness.

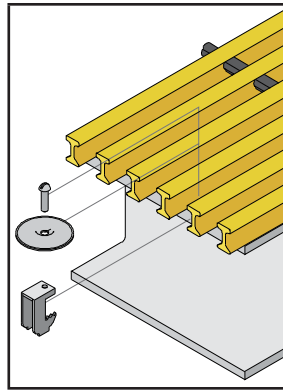

The chart above refers to the preferred fasteners for Strongwell's decking products, however other attachment methods may be used. The fasteners listed can be viewed on the back of this flyer. Typically, all fasteners used on Strongwell's decking products are 316 Stainless Steel. However, some of the hold downs listed above can be supplied using other material. For more information about our decking products, visit www.strongwell.com.
