

FIBERGLASS

A Structural Alternative for The Marine Industry!

▶ *Custom pultrusions were designed for Thunderbird for sidewall stiffeners and additional reinforcements under engines and fuel tanks.*

Why Use Fiberglass:

- Corrosion Resistant
- Rot/Mildew Resistant
- Low Maintenance
- High Strength-to-Weight Ratio
- Aesthetically Pleasing

▶ *This floating dock uses lightweight, maintenance-free fiberglass handrail, flooring and structural supports.*

▶ *Swim platforms made of fiberglass grating and structural shapes are slip-resistant and will not rot or corrode.*

Fiberglass is the long lasting, low maintenance structural alternative for boats, docks, decks, piers and other marine industry applications.

To learn how fiberglass can work for you, call David Ring at 276-645-8073 or email dring@strongwell.com.
