ROD AND BAR

THERMAL CURE ROD AND BAR is produced using all longitudinal reinforcements with low speed and high temperature, which provides a rich surface appearance. It has no surfacing veil, no pigment, and no added fire retardant. On request, Strongwell can quote special formulations including resin type, fire retardant properties, etc. Because it maintains high electrical standards, thermal cure rod is most commonly specified for electrical applications. Normally stocked for prompt delivery. *Thermal cure rod and bar was not designed to be machined.*

GENERAL INFORMATION

EXTREN® is pultruded structural composite profiles and plate produced exclusively by Strongwell with the EXTREN® logo embedded in the surfacing veil. It meets or exceeds the minimum published mechanical, physical, electrical, flammability, and corrosive properties of the respective Series published in the *Strongwell Design Manual*.

SERIES	RESIN	ADDITIVES		RECOMMENDED USE
500	Premium Polyester	UV inhibitor	Olive Green	A general purpose resin with excellent corrosion properties
525	Premium Polyester	Flame Retardant, UV inhibitor	Slate Gray	A general purpose resin with excellent corrosion properties and improved fire performance
600	Premium Vinyl Ester	UV inhibitor	Light Gray	For harsher corrosive environments and higher temperature applications
625	Premium Vinyl Ester	Flame Retardant, UV inhibitor	Beige	For harsher corrosive environments, higher temperature applications, with improved fire performance

Note: All standard EXTREN® products meet and/or exceed the structural requirements of E17 European standards. EXTREN® can be manufactured upon request to meet the mechanical and physical properties of BS EN 13706 (E23) European standards.

STOCKED/INVENTORIED ITEMS (Indicated by \checkmark)

Carried in inventory, no minimum quantity required.

LENGTHS CUT FROM STOCK: Special lengths can be cut from stock shapes and rods. Plate can be cut to size desired from 48" x 96" stock. A fabrication cutting charge will be applied.

NONSTOCKED ITEMS

Check for possible availability. These are occasionally available because of overruns. Purchaser having a requirement for non-stocked items should inquire about current inventory status.

SPECIAL RUN

SPECIAL RUN VARIANCE: The pultrusion process does not lend itself to producing exact quantities. Quantities may vary 10% more or less than requested quantity. If minimum quantities are required, orders should be placed considering these variances.

MINIMUM ORDER VALUE

Minimum order value is \$250.

COLORS

Special colors are available for shapes and plate. Price will vary, depending on cost, amount of pigment required, and standards of acceptability. Minimum quantities may apply.

SPECIAL RESINS AND FORMULAE

Special resins and resin mixes will be quoted specifically after resin mix has been tested for adaptability to the production process involved.

PACKAGING

If other than standard packaging is required, contact Customer Relations for additional costs.

TERMS

All products are manufactured in accordance to tolerance properties as published in the *Strongwell Design Manual*.

Strongwell's Standard Terms and Condition of Sale apply.
