

## BEING ENCLOSED WITH FRP

During the Spring of 2020, some fabricators forced to stay at home began to experiment with FRP products. One fabricator wanted to enclose the front of his existing carport. For this project, he chose Strongwell's Made in the USA 6" EXTREN<sup>®</sup> Series 525 channels to create a front wall as an addition to the existing structure.

Upon completion of the project, he complimented the ease of assembly, handling, and painting the EXTREN<sup>®</sup> products. He is currently finishing up additional projects with FRP, making shed walls and constructing a floor planked with fiberglass ladder rail. ●

### TECHNICAL DATA

Product:	Carport Enclosure Wall
Process:	Pultrusion
Materials & Sizes:	EXTREN <sup>®</sup> Series 525 Structural Shapes: - Channel: 6"
For & User:	Homeowner
