

DURASHIELD® INSULATED BUILDING PANELS

DURASHIELD® is a tongue-and-groove fiberglass pultruded panel comprised of a pultruded skin over a foam core. DURASHIELD® panels have R-values equal to 5 (1" panel) and 17 (3" panel). These insulative properties greatly reduce the heat flow through a protected structure, which reduces cost to heat.

DURADEK®/DURAGRID® PULTRUDED GRATING

Fiberglass grating panels are a strong, lightweight, low-maintenance replacement for metallic grates. Available in a wide variety of thicknesses, panel sizes, colors, grits, and resin systems. Shown above, EXTREN® plate was bonded to DURAGRID® grating panels to create rig mats which operate on the North Slope, AK, in temperatures below -40°C.

SAFRAIL™ INDUSTRIAL HANDRAIL AND LADDER & CAGE SYSTEMS

SAFRAIL™ is an easy-to-assemble, safe, and cost effective replacement to wood or metal handrail and ladder & cage systems.

EXTREN® STRUCTURAL SHAPES & PLATE

EXTREN® is an ideal replacement for wood or metal structural materials in harsh environments. Strongwell offers more than 100 standard shapes to meet all needs.

BENEFITS OF STRONGWELL FRP

- Won't Rust, Rot, or Corrode
- High Strength-to-Weight Ratio
- Lightweight
- Virtually Maintenance Free
- Low Electrical & Thermal Conductivity
- EMI & RFI Transparency
- Easy to Install
- Impact Resistant

ISO 9001 Quality Certified Manufacturing Plants
